ECLIPSES FOR THE YEAR 1891.

In the year 1891 there will be four Eclipses:—Two of the Sun and two of the Moon, and a transit of Mercury over the Sun's disk.

THE FIRST IS A TOTAL ECLIPSE OF THE MOON—May 23d at 12 o'clock 49 min., in the afternoon. Invisible here, but visible generally throughout the western part of the Pacific Ocean, Australia, Asia, Africa and Europe.

THE SECOND IS AN ANNULAR ECLIPSE OF THE SUN—June 6th at 10 o'clock 58 min., in the forenoon. Invisible. Visible in Alaska, Siberia, Norway, and Polar Sea.

THE THIRD IS A TOTAL ECLIPSE OF THE MOON—November 15th at 6 o'clock 39 min., in the evening. Visible generally in Asia, Africa, Europe, the Atlantic Ocean, North and South America and eastern part of the Pacific Ocean.

MANCHESTER COLLEGE LIBRARY

CENTENNIAL ALMANAC FOR 1891.

THE YEAR IN GENERAL.—The Solar year is dry throughout, a little damp, and tolerably warm.

SPRING.—Will be temperate, in the beginning tolerably humid, especially in April it will be very changeable; May will be pleasant and dry, but near its close it will be chilly with frost, hence the sheep should be kept off the grain, and as much as possible from the meadows.

SUMMER.—June will not be too secure from frost, besides it will be very dry. The beginning of August will be windy, afterwards clear and calm. The days will be hot, but the nights cool. The Summer in general will be pleasant, yet it will end with tempestuous weather.

FALL AND WINTER.—Will be agreeable, dry and fine; frost and freezing will be early, yet the cold will be moderate; rough unpleasant weather in the beginning, which will soon change for the better. February will begin with pleasant weather, and will end very cold, which will continue in March.

SPRING CROPS.—Must be sown as early as possible.

Barley and oats will grow very slowly, yet good in grain. But few peas and beans, unless planted in well manured, moist ground. Flax and hemp will be thin and short. Very little hay. Sheep should be kept from the pasture early in the Spring. Aftermath will be good. Cabbage and turnips will be poor on account of drought.

FALL CROPS.—The yield of wheat and crop will be small, but the quality, very good. Suffer no sheep on the grain in the Spring.

FALL SEEDING.—The Fall sowing should be put in deep, so that in the following hard winter it will not freeze out. It will not be necessary to sow very early.

FRUIT.—Pears will yield better than apples. Cherries, nuts, quinces and acorns, abundant. Corn, buckwheat, rice, and tobacco will grow well. Potatoes, cabbage and turnips, middling.

GRAPE CULTURE.—If in the preceding year grapes did not yield well they will do well this year, for Mars, the Sun, and Venus following, make every seven years a good wine-year.

QUATEMBER DAYS: February 18th, May 20th, September 16th, December 16th.

The Brethren or "Dunkards."

COMPILED BY D. L. MILLER.

THE Brethren, or, as they are more commonly called, "Dunkards," are a body of Christians with a membership not far from a hundred thousand, whose faith and practice is not generally known outside of their immediate localities. The errors in the books that attempt to describe the BRETHREN, as they call themselves, have been both numerous and lamentable. Starting with Buck's theological works and ending with the ponderous encyclopedias and standard dictionaries, error after error is found, and the faith and practice of the church has been very greatly misrepresented. The statements that the Brethren are celibates, that they discourage marriage, that they do not marry outside of their own Fraternity, that they keep the seventh day Sabbath, that they live in communities, and other similar errors, set forth in the books, are, and always have been without the slightest foundation. These misstatements, to be found in nearly all the standard works, show a lack of care in obtaining correct information that is far from commendable.

ORIGIN AND HISTORY.

The organization of the Brethren church grew out of the great religious awakening which occurred in Germany during the closing years of the seventeenth century, when large numbers, becoming dissatisfied with the lack of spirituality in the State Church, withdrew from its communion and associated together for the worship of God. They were called Separatists, or Pietists, and among them were to be found such men as Jacob Philip Spenner, Herman Francke, the founder of the Orphans' Home and School at Halle, Ernst Christian Hochman, Alexander Mack,* and many other earnest, pious men whose names have become historical. The Pietists were bitterly persecuted by the Re-

formed and Catholic churches, and were driven from place to place until finally Count Cassimir, of Witgenstein, opened a place of refuge for the persecuted brethren in his province. Here, in the village of Schwarzenau, Alexander Mack, and others, similarly minded, met together to read and study God's Word. They mutually agreed to lay aside all existing creeds, confessions of faith, and catechisms, and search for the truth of God's Book, and, having found it, to follow it wherever it might lead them. They were led to adopt the New Testament as their creed and to declare in favor of a literal observance of all the commandments of the Son of God.

In 1708 a small company, that is to say eight souls, repaired to the river Eder and were buried with Christ in baptism, trine immersion being the mode used. The church was organized, and Alexander Mack was chosen as their first minister, but he has never been regarded as the founder of the church. The Brethren claim to follow only Christ, and, as they accept his Word as their rule of faith and practice, the claim is well founded. The infant church increased in numbers rapidly, but even in Witgenstein their peace was soon disturbed, and, although they lived peaceful and harmless lives, the hand of persecution was laid heavily upon them. Mack, in company with Hochman, preached the Word of Truth in many parts of Germany, visiting Holland. Here they met and formed the acquaintance of William Penn, who was at that time much interested in his colony in the new world. The Brethren were invited to settle in Pennsylvania, and, as they were sorely persecuted, this invitation was accepted.

In 1719 they commenced emigrating to America, and in less than ten years the entire church found itself quietly settled down in the vicinity of Germantown and Philadelphia. From this nucleus, formed in the New World, the church spread southward and westward, and flourishing congregations are now to be found in many of the States.

**Geschichte Christlichen Lebens, Gœbel.*

They are, however, most numerous in Pennsylvania, Maryland, Virginia, Ohio, Indiana, Illinois, Iowa, Missouri, Nebraska and Kansas. At the Annual Conference, held at Warrensburg, Mo., 1890, twenty-two States and two foreign countries, Sweden and Denmark, were represented by delegates on the Standing Committee.

FAITH AND PRACTICE.

The Brethren hold the Bible to be the inspired and infallible Word of God, and accept the New Testament as their only rule of faith and practice. In the subtleties of speculative theology the church takes but little interest. She is chiefly concerned in giving willing and cheerful obedience to the plain, simple commandments of the Man Christ Jesus. The Brethren are in every respect evangelical in their faith. They believe in the Trinity, in the divinity of Christ and of the Holy Spirit, and in future rewards and punishments. Faith, repentance and baptism are held to be the conditions of salvation. Faith changes the mind, repentance the life and character; and baptism the relation. These three constitute true evangelical conversion, and upon them rests the promise of the forgiveness of sins and the gift of the Holy Ghost.

BAPTISM.

Baptism is administered by trine immersion. After being instructed in the faith and practice of the church, and having faithfully promised to observe her practice, the applicant is taken down into the water, and, kneeling, re-affirms his faith in Christ and promises to live faithful until death. He is then baptized for the remission of his sins into the name of the Father, and of the Son, and of the Holy Ghost; the administrator immersing the applicant face forward at the mention of each name in the Trinity. The administrator then lays his hands on the head of the kneeling candidate and offers a brief prayer in behalf of the one baptized, and he rises to be greeted as a brother, with the right hand of fellowship and the kiss of love, to walk in newness of life.

The Brethren follow very closely the practice of the apostolic church, and admit none into fellowship until they have been baptized. In the language of Peter to the Pentecostians, they tell all believers to "repent, and be baptized in the name of Jesus Christ for the remission of sins, and ye shall receive the gift of the Holy Ghost." Acts 2: 38. Holding that baptism is only for believers, and those who have repented, they oppose infant baptism. Infants can neither believe nor repent, hence they are not proper subjects for baptism. Christ having sufficiently atoned for them, all children who die before coming to a knowledge of good and evil will be saved.

In defense of trine immersion they hold that the great commission given by Christ, and recorded in Matt. 28: 19, Revised Version, "Baptizing them into the name of the Father, and of the Son, and of the Holy Ghost," teaches a threefold action. As there are three persons in the Trinity, each one of the Divine Three are honored in this form of baptism. As the three Persons constitute one God, so the three dippings constitute one baptism. In favor of their practice they have the testimony of all Greek scholars, who have examined the subject, the practice of the entire Greek church, and all reliable history. These all show that trine immersion was the universal mode of baptism in all the influential churches for centuries succeeding the apostolic age. Changes were gradually made from trine immersion to sprinkling, but the church that made the change, the Roman Catholic, still retains the three actions in applying water to the candidate. Nearly all the Protestant churches that practice sprinkling, retain the same form, thus testifying to the truth that the commission teaches a threefold action in baptism. Their baptism is accepted as valid by all religious denominations of any note whatever.

disciples' feet, ate a supper with them and instituted, in connection with this sacred meal, the Communion of the bread and wine. The apostles, led by the Holy Spirit, followed the example of their Great Leader and introduced the *agape* into the apostolic church. This feast of love, of which all the Christians partook, was composed of a full meal, was eaten in the evening, and is called by the apostle Paul the Lord's Supper. The Communion of the bread and wine was given in connection with this meal. The love-feast was kept up in the primitive church for four centuries, but as the church grew in numbers and wealth, it lost its first love and spirit of fraternity, and the feasts of love were discontinued. The Brethren adhere to the example of Christ and the practice of the apostles and primitive Christians, and keep the feast of love. A full meal is prepared and placed upon tables, used for that purpose, in the church, and all the members partake of the supper to the satisfying of hunger.

Before eating supper, the religious rite of washing feet is observed. Their authority for this practice is found in John 13: 1-17, "He riseth from supper, and laid aside his garments; and took a towel, and girded himself. After that he poureth water into a basin, and began to wash the disciples' feet, and to wipe them with the towel wherewith he was girded. . . . If I then, your Lord and Master, have washed your feet; ye also ought to wash one another's feet. For I have given you an example, that ye should do as I have done to you." The Brethren do not stand alone in the practice of this rite. The Greek church, with ninety million communicants, has adhered to feet-washing, as she claims, ever since the days of the apostles, and the patriarch of Jerusalem engages in feet-washing to-day near the spot where Jesus himself gave the example and the precept.

The Brethren hold "that in the church established by Christ, there are no differences born of human pride. All stand upon a level before God. All are servants and all are

masters. In common with all other great principles of Christianity, this has received its corresponding ordinance, illustrative and typical of the fact that humility and religion are inseparable. It is the ordinance of feet-washing, established by our Savior, and observed, as directed by him, among the Brethren. Being emblematical as baptism is, it bears no more relation to the mistaken idea of personal cleanliness than the act of baptism does to a bath. In its practice, at the love-feast occasions, water is poured into a basin, and a towel or apron is girded about the brother, and, from the example given by Christ, he typically washes his brother's bared feet, as an evidence that he is his servant, and the other his master. The relations are then reversed, and the servant becomes the master, and this rite is performed all over the congregation of the Brethren at love-feast occasions. The sisters wash the sisters' feet, and all the proprieties of the sexes are most rigidly observed."

After observing the ceremony of feet-washing, a blessing is asked upon the simple meal spread on the tables, and it is eaten with solemnity. It is held to be typical of the great supper at the end of the world, when Christ himself will be master of ceremonies. The important lesson is taught that we are all children of one common family, members of one common brotherhood, having one common purpose in view, and the bond of fraternity and loving fellowship by eating together this sacred meal as did Christ and his disciples, as did the primitive Christians. At the conclusion of the meal thanks are returned and then, as the members are seated around the tables, the right hand of fellowship and the kiss of charity are given. The salutation of the kiss of love in worship and in customary greetings, as enjoined by the apostles, is never observed between the sexes.

The Communion is then administered. This consists in partaking of the bread and wine in commemoration of the sufferings and death of our adorable Redeemer. In the Lord's Supper we are pointed forward to the

 SATURN is in opposition with the Sun on the 4th, and shines all night.

evening of the world, to the great reunion of the saints. In the Communion we are pointed back to the cross. The emblems are passed from hand to hand by the brethren, while the officiating minister breaks the bread and passes the cup to the sisters. After this a season of earnest devotion follows, and then a hymn is sung and the services are closed for the evening. Love-feasts are held in each congregation, usually twice each year, but as the members visit from congregation to congregation, during the love-feast season, they engage many times in this service during the year.

CHURCH GOVERNMENT.

The Brethren have a republican form of church government. Each congregation is independent in the management of its local affairs, such as the election of deacons, ministers, elders, or bishops, and in matters of local church discipline; but is subject to the General Brotherhood through District and National Conference. A number of congregations, usually in the same State, conveniently located, are formed into a District, and these hold annual conferences, to which each congregation sends two delegates, either lay members, deacons, or ministers. Questions, local to the District, are discussed and settled by the District Conference, but those of a general character are sent to the General Conference, or Annual Meeting, as it is commonly called. This is also a delegated body. The Districts, thirty-two in number, each elect one delegate, who must be an elder, to serve on the Standing Committee, and each congregation, with a membership of one hundred and fifty, or less, may elect one delegate. Congregations with a larger membership may send two delegates. The delegates may be selected from the laity or the church officials; the Standing Committee and delegates from the official body of the Conference. Any member present may take part in the discussion of questions, but the voting is confined to the delegates, two-thirds of the votes cast being required for a decision.

The General Conference is also a great an-

nual reunion for the Brethren. They come together from all parts of the Brotherhood. It is not unusual for ten thousand of them to assemble at the place of Meeting. The decisions of the Conference are to be adhered to by all the members of the church. An examination of the book of Minutes of the Annual Meeting shows that questions referring to church doctrine rarely came before the Conference, showing that there has been a firm adherence to the principles of the Gospel as originally adopted by the church. But the application of those principles in special cases, and the best means to carry them into effect, have been subjects of frequent discussion and decision by the Meeting. The tendency of the Conference and the annual reunions is to unify the Brethren in all their church work, and it is a fact that there is rarely found so large a body of religious people so closely united on the doctrines and principles to which they hold.

Elders, ministers and deacons are elected by the church from among her members, such as she may deem qualified for the important work to which they are called. Each member, without reference to sex, has a right to cast a vote. Ministers, after giving full proof of their faithfulness and ability, are advanced to the "second degree" of the ministry. They are then authorized to baptize, solemnize marriage, and make and fill appointments for preaching the Word. Elders, or bishops, who preside over the congregations, are chosen from the ministers in the second degree. Usually the oldest in office, if he have the proper qualifications, is selected. No salaries are paid, but poor ministers, and those who are sent out as missionaries, are properly supported.

A PECULIAR PEOPLE.

The Brethren claim to be, and are, in many respects, a peculiar people. Plain dressing is taught and required, and a general uniformity is observed, but this is regarded as a means to an end. They believe that the New Testament teaches plainness in at-

tire, 1 Tim. 2: 9, 10; 1 Pet. 3: 3, and that, by a general uniformity of habit, marked enough to distinguish the church from the world, Gospel plainness may be made a living fact instead of a dead letter, as it has become in many other churches whose discipline strongly insists on plain dressing.

The Brethren never go to law with one of their own number, nor with others, without first asking the counsel of the church, and it is a rare thing indeed for a brother to be engaged in a lawsuit. Among themselves differences are adjusted personally, or by the church, in accordance with the Christian law of trespass given by the Master. Matt. 18: 15-20. The Fraternity is strictly non-resistant, as well as non-litigant. It is held that Christ is the "Prince of Peace," that his Word is "the Gospel of Peace," hence his servants can not go to war and fight. "For the weapons of our warfare are not carnal, but mighty through God to the pulling down of strong holds." 2 Cor. 10: 4. They take no active part in politics, and "swear not at all." If called upon to testify in the courts, they simply affirm, without raising the hand or kissing the Bible. In this they literally obey the command of Christ who said, "Swear not at all. But let your communication be, Yea, yea; Nay, nay: for whatsoever is more than these cometh of evil." Matt. 5: 34-37. No brother can become a member of any secret or oathbound society, the Brethren holding that the Gospel of Jesus Christ is fully sufficient for all the wants of humanity. All new converts who are identified with such orders are required to sever their connection with them before they can be adopted into the family of the Brotherhood.

The Brethren hold that the marriage bond can only be dissolved by death. Divorce and remarriage are unknown among the membership. It is held by some that those who have been divorced for a violation of the sanctity of the marriage vow and remarried before conversion, might be received into church fellowship while their former companions were living, but the rule has been

against even this much leniency, and they hold, with Paul, that the woman which hath a husband is bound by the law to her husband so long as he liveth: but if the husband be dead, she is loosed from the law of her husband." Rom. 7: 2.

They, in compliance with the instruction of the apostle James, 5: 14, 15, anoint the sick with oil. This rite is administered only by the request of the sick. The elders are called and the sick member is raised to a sitting posture. The elder applies the oil to the head, three times, saying, "Thou art anointed in the name of the Lord unto the strengthening of thy faith, unto the comforting of thy conscience, and unto a full assurance of the remission of thy sins." The elders then lay their hands on the head of the sick, and offer a prayer for the anointed one.

The church keeps her poor, each congregation looking after her own who may become needy. If a single congregation becomes burdened, she may call for assistance upon her sister congregation. "As a member of an earthly family is not allowed to come to want, so the Fraternity recognize, in their spiritual relations to one another, the demand for support, moral and physical, in time of need. Hospitality obtains everywhere, and the blasting hand of worldlyism has not touched this Christian virtue. The open sesame to the heart of a brother is the assurance of spiritual kinship."

On the question of temperance and prohibition the Brethren have, for more than a hundred years, given no uncertain testimony. They are the oldest temperance organization in the United States. More than a hundred years ago a decision was passed, forbidding any of the members to engage in the manufacture or sale of intoxicants. They forbid the use of all alcoholic or malt liquors as a beverage, in public or private. They request the members not even to have dealings with saloon-keepers. They discourage the use of tobacco, and the rule is that no brother can be installed in office who uses tobacco without making a promise to quit it. All appli-

cants for baptism, who are addicted to the tobacco habit, are advised to abstain from its use before they are received into church fellowship.

The Fraternity is largely engaged in agricultural pursuits, but men and women in other departments of human endeavor may be found enrolled among its members. Four schools or colleges are in successful operation, over which the church has a supervisory control. The schools are located, one at Huntingdon, Pa., one at Mt. Morris, Ill., one at Bridgewater, Va., and the other at McPherson, Kans.

"Quiet and peace are the guardian angels of the church, and the attempt to infuse into it the spirit of the Man of Sorrows, has not been entirely unsuccessful. No caste distinction has ever entered our doors. Rich and poor before the altar of devotion are unknown, except that it be a silent recognition of great possessions of a soul rich in the peace of God. The poor man and the millionaire, the servant and her mistress, are recognized by no external marks, deference or favor. We are indeed one. It is impossible to present on paper the genius and spirit that actuate and underlie the distinctive Brethren church, but it may be summed up that, as far as possible, the trend of thought, speech and action is Christward. It is true that in action the ideal always suffers more or less, yet, with all the mistakes of our individuality and the discord of personality, there is yet that grand choral sympathy among us, forever ascending to heaven, not unpleasing to him whom we are endeavoring to serve."

The Temperate Miller.

AMONG the many emigrants who came to Ohio in its early day, was one, John Lucas,—a miller,—from North Carolina, who settled on the Miami Bottoms near Posttown and Franklin. A mill being one of the most important helps to the country, it was soon decided to erect one.

The place was selected, the timber upon the ground and ready, and a large number of men, from far and near, at hand, when the different sentiments on Temperance came into conflict. The custom had long been indulged to have whisky at the raising of houses, etc., and now, at the raising of the mill, why have an exception? But temperance triumphed and that in as early a day as 1827.

The men and boys gathered on the day appointed for the work, and, because there was no whisky provided for their enjoyment by their friend Lucas, they refused and there was nothing done to the mill on the first day.

Lucas said: "Captain Whisky shall not raise my mill-house."

It was proposed to try the work again and, on the next morning, all, and more, came back to see the result. The crowd still said, "Whisky," but the miller said, "None," and so continued until noon of the second day, when some of the citizens and neighbors began to fall into line with the miller and these sent out runners, far and wide, for temperance men to come in the third day and put up the mill.

Accordingly, on the third day, two crowds had collected and the two sentiments were warm and strong. The crowd for whisky collected near the mill, at a grocery, or store, and spent the day in talking and boasting that the mill could not and should not be raised without whisky, while the other, not so large or many, met together at the mill, and went to work with a will and without whisky, and by evening the mill was put up and our friend John Lucas had turned the scale, that was here so nearly balanced, and turned it, too, in favor of temperance.

The above facts and names I learned from our old brother, John Crissman, of Preble County, Ohio, now deceased, who, on the third day of the contest, was on the ground and helped put up the mill.

Herschel's Centennial Weather Table,

For Foretelling the Weather, Throughout the Lunations of Each Year, Good for 100 Years.

THIS table and the accompanying remarks are the result of many years' actual observation, the whole being constructed on a due consideration of the attraction of the Sun and Moon, in their several positions respecting the earth, and, by simple inspection, it shows the observer what kind of weather will most probably follow the entrance of the Moon into any of its quarters, and that so near the truth as to be seldom or never found to fail.

| If the New Moon, First Quarter, Full Moon or Last Quarter happens, | IN SUMMER. | IN WINTER. |
|---|-----------------------------------|-------------------------------------|
| Between midnight and 2 o'clock..... | Fair..... | Frost unless wind South-west. |
| " 2 and 4 morning..... | Cold and showers..... | Snow and stormy. |
| " 4 " 6 " | Rain | Rain. |
| " 6 " 8 " | Wind and rain..... | Stormy. |
| " 8 " 10 " | Changeable | Cold rain if wind W., snow if E. |
| " 10 " 12 " | Frequent showers..... | Cold and high wind. |
| " 12 " 2 afternoon..... | Very rainy..... | Snow or rain. |
| " 2 " 4 " | Changeable | Fair and mild. |
| " 4 " 6 " | Fair..... | Fair. |
| " 6 " 8 " | Fair if wind North-west..... | Fair and frosty if wind N. or N. E. |
| " 8 " 10 " | Rainy if South or South-west..... | Rain or snow if South or S. W. |
| " 10 " midnight | Fair..... | Fair and frosty. |

OBSERVATIONS.—1. The nearer the time for the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.

2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phase of the Moon happens, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.* from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.
6. Though the weather, from a variety of irregular causes, is more uncertain in the latter part of Autumn, the whole of Winter and the beginning of Spring, yet in the main the above observations will apply to those periods also.
7. To prognosticate correctly, especially in those cases where the *wind* is concerned, the observer should be within sight of a good *vane*, where the four cardinal points of the heavens are correctly placed.

MARS is in conjunction with the Sun on the 30th, and cannot be seen.

Facts Not Generally Known.

If your spoons are stained from eggs, rub them with common salt.

To RESTORE COLOR.—Hartshorn will usually restore colors that have been taken out by acid.

To REMOVE INK.—To take out ink, iron, or mould stains, wet them with milk and cover with salt.

STOVE POLISH.—Mix a little sugar with stove blacking and it will give a better polish and not burn off so quickly.

To WASH BLANKETS.—A little ammonia and borax in the water when washing blankets keeps the flannel soft and prevents shrinking.

VENTILATION.—The rooms of a house need ventilation in the day-time, as well as in the night; in the winter as well as in the summer.

PLANTS IN THE KITCHEN.—The kitchen window is the best of all windows for plants; the steam from boilers and kettles keeps the air moist.

To CLEAN WINDOWS.—Windows and mirrors can be made to shine without long polishing, if after being washed in hot soap suds they are rubbed dry with a newspaper.

To TAKE INK OUT OF LINEN.—To take ink out of linen, dip the ink spot in pure melted tallow, then wash out the tallow, and the ink will come out with it. This is unfailing.

To WASH STOCKINGS.—Colored and black stockings if washed before wearing at all and a little beef's gall put in the water, will never fade nor change color either with wearing or washing.

A PERSON who will throw himself on his back in the water, with his hands clasped in each other, at the back, and with his head thrown back, so that the nose and mouth may protrude from the water, may float for hours and can not sink in that position.

AN INSECTICIDE.—A Belgian gardener contends that after trying the various special manufactured insecticides, he is convinced that tobacco juice in its different forms is still the best remedy.

TO REMOVE PAINT.—To take spots of paint from wood, lay a thick coat of lime and soda mixed over it, letting it stay twenty-four hours, then wash off with warm water and the spots will disappear.

FRUITS and berries are healthy every day of the year, whether a man is sick or well. Actual observation has established the fact that fruit is medicinal even in diarrhoea, inasmuch as it has a curative effect when properly used.

FOR SPRAINS.—Take ten cents worth of wormwood, cover it well with vinegar, put in a handful of salt, and let the mixture come to a boil; bathe the affected part with it as hot as you can bear it, and it will effect a cure more quickly than anything else ever tried.

CURE FOR INSOMNIA.—People troubled with insomnia, nervous starting from sleep and sensations of falling can often be cured by limiting themselves to a diet of milk alone for a time. An adult should take a pint for a meal, and take four meals daily. People with weakened nerves require, usually, a larger quantity of water than those whose brains and nerves are strong. It aids in digestion of food by making it soluble, and seems to have a direct tonic effect.

HOW TO PREPARE FRESH FRUIT.—Apples, pears, peaches and other fruits can be preserved in a fresh state to look and taste as well as when picked from the trees, in the following manner: Large sheets of soft tissue paper put into a strong alcoholic solution of salicylic acid, diluted with as much pure water as it will bear without precipitation. The paper is then dried, when it is ready for use. The fruit is dropped piece by piece into these slips of paper and wrapped up, and thus is preserved as solid and nice as when picked from the tree.

Useful Hints.

BAKING SODA FOR BURNS.—Cloths dipped in a thick solution of common baking soda in water and applied to the injured surface are excellent for burns. They must be kept wet by squeezing more soda and water on them whenever a dry spot begins to appear.

A FARMER had over two hundred hogs, and lost half of them by hog cholera. He then dipped ears of corn in Carolina tar, besmearing them, and threw them among the hogs. They ate it greedily, and in a week all were on the road to recovery. Another remedy he has used successfully is that of feeding corn in the ear that has been charred black.

LOCKJAW.—In lockjaw, take a small quantity of turpentine, warm it and pour it on the wound, no matter where the wound is, and relief will follow in less than a minute. Nothing better can be applied to a severe cut or bruise than cold turpentine; it will give certain relief almost instantly. Turpentine is almost a certain remedy for croup. Saturate a piece of flannel with it and put it on the chest, and in a severe case three or four drops on a lump of sugar may be taken inwardly. Every family should have a bottle on hand.

A VALUABLE RECIPE.—Here is the recipe for a mixture which, it is claimed, will remove old paint from wood: Four pounds of Irish moss, three pounds of methylated spirit and three pounds of fuller's earth are mixed with thirty pounds of water, the whole boiled and a solution of sixteen pounds of caustic soda and sixteen pounds of caustic potash dissolved in twenty-eight pounds of water added, after which the product is stirred until it is cold and has solidified to a brownish gelatinous mass. The proportion of the ingredients may be varied. The compound is used by applying it to the painted surface with a brush, allowing it to remain thus from twenty minutes to an hour and then washing it off, together with the paint that has been disintegrated by its action.
